SENSEATIONAL — WELLNESS™

— JACUZZI®
BRAND IS AN ICON

SENSE^ATIONAL — WELLNESS™

— HERITAGE

When the seven Jacuzzi brothers immigrated from Italy to the United States, they had no idea that a pump they designed for orchards would revolutionize hydrotherapy in the home. And while the family's critical need to change the life of a child triggered this therapeutic invention, a desire for wellness pioneered an industry.

Renowned for its performance, reliability and ease of use, we set the

standard by which all hot tubs are measured. While imitation may be the sincerest form of flattery, only 60 years of innovation can produce hot tub designs made to the demanding standards of the Jacuzzi® Brand.

Jacuzzi® Brand products are manufactured in 5 countries, enjoyed in more than 100 countries worldwide, and employ thousands of people around the world.

Representing decades of innovation, design, performance and ease of use, the Jacuzzi® Brand is trusted by millions of customers globally.

1915

The Jacuzzi family departs Italy for the United States and transforms the aviation and agriculture industries.

1956

When Ken Jacuzzi, age 2, is diagnosed with rheumatoid arthritis, his father invents a portable hydrotherapy pump to provide pain-relieving hydrotherapy.

1968

Jacuzzi soon became a household name thanks in part to repeated appearances on the national daytime television show, Queen for a Day, which boasted 20 million viewers. The Jacuzzi® Brand became an overnight sensation.

2016

With a foundation in health and wellness and a dedication to research and innovation, Jacuzzi® continues to develop products that improve the lives of both high-performance athletes and everyday people while leading the industry as the most recognized hot tub brand in the world.

2020

Through the years, the Jacuzzi® Brand has been awarded more than 700 patents, laying our foundation for unmatched hydrotherapy and leading to breakthroughs in jet engineering, design, and the SmartTub™ system.

— JACUZZI® TECHNOLOGY

HOT TUB TECHNOLOGY

High water capacity of Jacuzzi®
Hot Tubs offer total immersion.

Small and large hot tubs for every need,
designed for intensive, professional use.

Programmable filtration: the finer the
filtration, the less effort is required to clean
the water (SPA pack system, sand filter).

Clear, cristal clean water with water
purification system: **CLEARRAY®** + UV-C,
and **CLEARRAY** Active Oxygen™.

SPECIAL SOLUTIONS

Hot tubs with flush grilles and rim.

Special Spa Pack for lower running noise.

Green systems use a heat exchanger instead of an electrical heater for greater energy sustainability.

INNOVATION

Automatic filling and fast water draining for easier tub filling and emptying.

Automatic tub filling system.

Easy and intuitive controls for guests.

Remote hot tub management and control technology for easy, safe operation thanks to the SmartTub™ App.

New insulation system to increase energy efficiency with maximum performance.
